

Exporting a workspace list to CSV

MSP administrators can export the workspace list to a CSV file from the **Manage Workspaces** page. You can then download the exported CSV file from the activity log.

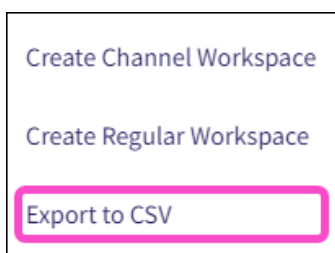

To export a workspace list to a CSV file:

1. **Access the Manage Workspaces portal.**

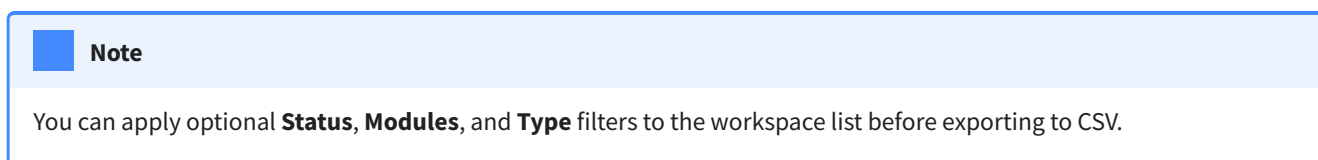

2. Select **ACTIONS**:

3. Select **Export to CSV**:

An export confirmation notification appears.

After the export completes, you can download the CSV file from the activity log.

4. Select **Control Panel > Activity Logs**.

5. Locate the activity log entry and select **DOWNLOAD**:
