## Creating API credentials

## To create API credentials:

## 1. Log into the Coro console and from the Control Panel, select Connectors:

Сого					ম	٥		٢	RG
Control Panel									
Protection									
Cloud Security	Endpoint Security	Email Security	User Data Governance	Endpoint Data Gover	rnance		EDR		
		Email Security	User Data Governance		mance		LDIK		
$(\underline{\aleph})$									
Managed SOC	Network								
Workspace									
29		$\bigcirc$							
Users	Devices	Cloud Applications							
Access Control	Activity Logs	Connectors	Reports						

- 2. Select the API Credentials tab.
- 3. Select + CREATE API KEY or CREATE API KEY:
