

# The Actionboard

Your Coro service is managed through the **Coro console**, a web-based portal accessible through most common browsers. The console provides all the tools needed to manage and monitor your Coro **workspace**.

## Using the Actionboard

After you **log into the Coro console**, Coro presents the **Actionboard**. This is the main dashboard to monitor and manage ticket activity for all protected apps, users, and devices.

The **Actionboard** is divided into the sections marked in the following image:
