

Email Security

Coro scans emails for threats such as phishing, malware, and ransomware, and automatically remediates identified threats. A summary of email activity is shown in the **Email Security** dashboard panel:

Email Security 

1,550,684
Emails Processed / 90 days

Top Sources of Suspicious Emails

Source	Count
[Redacted]	41
[Redacted]	38
[Redacted]	38
[Redacted]	28
[Redacted]	22

Note

Select the icon in the top-right of the panel to access the **Email Security** configuration page.

The **left pane** shows:

- The total number of emails processed in the last 90 days.
- A list of suspicious domains ranked by the number of detections, in descending order.
