

Using the Secure Messages web portal

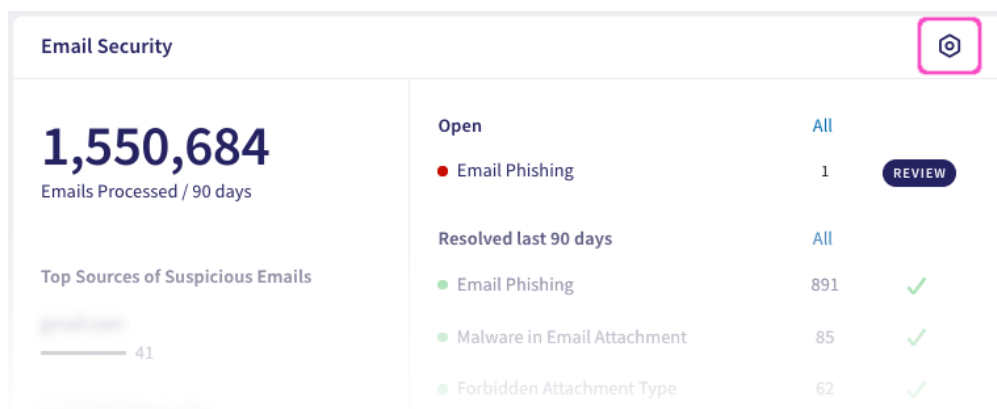

This article describes how to log into and use the Secure Messages web portal.

To learn more about Secure Messages, see [Secure Messages](#).

Signing in to the Secure Messages web portal

To access the Secure Messages web portal:

1. **Log into the Coro console.**
2. From the **Actionboard**, select the *Control Panel* icon at the top of the **Email Security** dashboard panel:

Alternatively, select **Email Security** from the main Control Panel:
