Using the Secure Messages web portal

This article describes how to log into and use the Secure Messages web portal.

To learn more about Secure Messages, see Secure Messages.

Signing in to the Secure Messages web portal

To access the Secure Messages web portal:

1. Log into the Coro console.

2. From the Actionboard, select the Control Panel icon at the top of the Email Security dashboard panel:

Alternatively, select **Email Security** from the main Control Panel:
