

Welcome to Coro Help and Documentation

Coro delivers affordable, enterprise-grade cybersecurity for mid-market businesses. Our goal is to simplify cybersecurity through a user-friendly, unified dashboard (referred to as our **Actionboard**).

Through the Actionboard, you can assess your security posture at a glance, view detailed information, and take action quickly and easily.

With open APIs, extensive third-party integrations, and consolidated dashboards and alerts, Coro makes cybersecurity easier and more effective.

What's on this site

Use the navigation bar at the top to view the support and documentation resources available.

Choose from:

- **Featured guides:** Targeted guides and information on deploying Coro in your organization.
- **Product documentation:** Complete Coro product documentation by topic.
- **FAQs:** Frequently asked questions.
- **Release notes:** Find the release notes for each released version of the Coro platform.
- **Compliance with Coro:** Information regarding how Coro can help you comply with international data regulations.
- **Submit a support request:** Ask our Support team for help.
- **Sign in to support:** Sign in to a support system account.
