v3.0.1

Version 3.0.1, a minor release, includes:

- **New features**
- **Enhancements**
- **Fixed items**
- **Agent updates**

Prerequisites

Before you can use the features and enhancements described below, you must update the relevant agent on your device. *macOS*/*Windows* agents 3.0.5 will be available on December 10, 2023.

New features

This section describes the modules, add-ons, and other new features that we are releasing with version 3.0.1.

1. **Network**
   - **Secure Web Gateway add-on**
2. **Mobile Device Management (MDM)**
3. **Security Operations Center (SOC) settings**

1 - Network

Coro's **Network** module is built for distributed and remote workforces, enabling businesses to create a secure virtual office while protecting businesses from external and internal threats. Admin users can configure:

- Virtual office including VPN, site-to-site tunnels, and firewall as a service.
- **Secure web gateway add-on**.

For further information, see **Network**.
