

Setting access permissions

Data governance regulations (such as GDPR, HIPAA, SOC2, PCI DSS, and CPA) require monitoring:

- Unauthorized data **exposure** of sensitive information.
- Unauthorized data **access** to sensitive information.

To configure your permissions:

1. **Log into the Coro console** and select **Control Panel** from the toolbar:

2. Select the **User Data Governance** option:

3. Select the **Permissions** tab:
